Subject RE: Meeting

Doug,

I'm available for each of those weeks. I guess I would leave Wylie out of the mix for now. I can check on the plane for you when a date is set.

Thanks!!

Tim

Subject: Meeting

Ernie - As a follow-up to your visit in September to the University Airport, I agree that a meeting in your office would be an appropriate next step.

We will be meeting with the Worthington contingency (i.e. Dave Zoll and Dennis Hughes) next Monday & Tuesday. We will be receiving their comments regarding the draft scope of services for the noise analysis at that time. A meeting between the FAA, DLZ, and OSU is in my opinion the best way to finalize this workscope and begin the analysis.

Ernie & Tim, please provide me with your availability the weeks of 10/27 and 11/3, for a meeting at the Detroit ADO. Tim, you decide if Wylie involvement is necessary at this time, or if we pull them in after our discussion.

Ernie, I am also going to invite Wendy Patton from the OSU Real Estate office along. I think it will be good to have a face-to-face regarding the land release issue. Let Mary J. know in case she needs to be involved in that part of the discussion.

One final thought for Tim, any chance of two OSU staffers hitching a ride in a DLZ bird? If not, I can arrange something from this end.

Talk to everyone soon,

Doug
