September 21, 2004

Mr. Dennis S. Hennen
198 Caren Avenue
Worthington, OH 43085

Dear Mr. Hennen:

I respond to your September 14, 2004, e-mail request to me for information related to OSU Airport development planning information. Your e-mail request modified slightly the list that you handed to me Monday evening, September 13, at the Worthington City Council Meeting. I presume that you are requesting this information on behalf of the WOOSE organization (We Oppose Ohio State Airport Expansion).

1. The Environmental Assessment, including all supporting documents.

A paper copy of the Internal Review Draft, "Environmental Assessment for Proposed Development at The Ohio State University Airport, September 2004," is provided herewith. This report was prepared by DLZ Ohio, Inc. Under federal guidelines, this document is not released to the public until the formal review/comment period.

2. The Noise Study, including all supporting documents.

A paper copy of the Draft "Aircraft Noise Study for The Ohio State University Airport, September 2004," is provided herewith. The report was prepared by Wyle Laboratories for DLZ Ohio, Inc. This document is to be incorporated as Appendix B in the "Environmental Assessment."

3. The 2004 Airport Master Plan Update.

A paper copy of the Draft "The Ohio State University Airport, Don Scott Field, Master Plan, October 2002," is provided herewith. This item is available on the OSU Airport website: <http://www.osuairport.org/development/default.php>. This report was prepared by Wilbur Smith Associates with R. D. Zande & Associates.

4. The participants of, the minutes of, and any materials presented or distributed at the Airport Advisory Committee meetings.

Paper copies are provided herewith. This information is available the OSU Airport website. Discussion material was placed on the website prior to each meeting (1/23/03, 1/20/04, 6/23/04), with meeting notes posted following each meeting.

5. The participants of, the minutes of, any materials presented or distributed at, and any notes used in preparation for the July 9th Board of Trustees Briefing by Karen Holbrook. Include such items from other, similar meetings.

The Dean has been informed that no such documents exist and that President Holbrook merely briefed the Board verbally on what was happening.

6. **All materials promised on September 10th to be posted on the OSU Airport website by September 13th.**

It is presumed that this is the material that is to be posted on the OSU Airport website in preparation for the next OSU Airport Advisory Committee Meeting scheduled for October 14, 2004. Paper copies are provided herewith. The information is available on the OSU Airport website except for the Environmental Assessment internal review draft.

7. **OSU Airport financial records from January 1, 1994 to present, including any audits performed.**

I am unable to respond to a broad request for "financial records" that lacks a description having reasonable specificity. However, a paper copy of the OSU Airport FY2004 Revised and FY 2005 Proposed Projected Annual Operating and Cash Flow Statement is provided herewith. The information is available on the OSU Airport website.

8. **An analysis of how the proposed expansion and Instrument Landing System (ILS) will affect development and use of Worthington parkland on Godown Road. This is the land near the corner of Godown and Linworth Roads, west of the railroad tracks and north of Godown Road.**

No OSU Airport related facilities will be placed on the parkland.

9. **The economic impact study detailing the airport's economic contribution to the surrounding communities.**

A paper copy is provided herewith. This information is available on the OSU Airport website.

10. **The airport's current business plan.**

A business plan is being developed. One does not now exist.

I trust that this information satisfies your requests.

Sincerely,

W. A. Baeslack, III
Dean

c: Letter only:

- D. Elder, Worthington City Manager
- L. J. R. Goorey, President, Worthington City Council
- D. E. Hammon, Director, OSU Airport
- A. Pello, President, WOOSE
- N. K. Taneja, Chair, Department of Aerospace Engineering and Aviation
