

RESOLUTION NO. 837

**A RESOLUTION REQUESTING THAT THE FEDERAL AVIATION
ADMINISTRATION PERFORM AN ENVIRONMENTAL IMPACT STUDY
REGARDING DON SCOTT AIRPORT**

Introduced by M r. Schaefer.

WHEREAS, The Ohio State University Airport is an airport owned and operated by The Ohio State University that lies to the west of the Village of Riverlea; and,

WHEREAS, The Ohio State University has proposed to expand and make certain modifications to its facility, including extension of Runway 9L/27R, installation of an Instrument Landing System on said runway, major development and expansion of corporate aviation facilities at the airport; and,

WHEREAS, the Village of Riverlea has a duty to determine the impacts, if any, which may cause disruption of an established community or may disrupt orderly and planned development, due to the significant increase in noise and surface traffic congestion that such proposed improvements may have on its citizens; and,

WHEREAS, questions regarding the thoroughness of the environmental assessment and noise impact study performed on behalf of The Ohio State University have diminished the confidence of the public in the reliability of those reports, and may indicate the construction of the proposed development might cause a significant impact on noise levels of noise sensitive areas and environment in areas surrounding the airport, including the Village of Riverlea; and,

WHEREAS, there are significant questions surrounding the cumulative impact of the proposed improvement, including its impact on existing runways and flight patterns which cannot be answered without further study;

**NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE
