The Ohio State University Board of Trustees
190 North Oval Mall
Columbus, Ohio 43210

Dear Trustees:

I respectfully urge the Federal Aviation Administration and The Ohio State University to conduct an Environmental Impact Study (EIS) on the plans for the extension of the Don Scott Airport's North runway.

I am writing in response to concerns my Worthington constituents have expressed regarding the proposed expansion of the Don Scott/OSU Airport.

They have expressed grave concern that the major increase in air traffic, due to the runway expansion, will result in an unbearable nuisance. They foresee an adverse affect on their property value and the quality of life in the area.

I look forward to receiving your response on this issue so that I may share it with the constituents of my district

Thank you for you consideration in this matter.

Sincerely,

Jim Hughes
State Representative
